training

To maximize individual and organizational performance through high quality, cost-effective training and training service.

SSSI Training Service Mission Statement

An integral component of any successful organization is a well-trained workforce. SSSI's Training Services Division provides high quality cost-effective training services that maximize our customers' performance levels.

SSSI is an Information Technology company that has been providing a wide range of high quality systems development and support services for over 15 years. Our business focus is concentrated on the development of innovative systems and software solutions for organizational issues and challenges.

Our training services include needs assessment, joint requirement planning sessions, curriculum and courseware design and development, and training delivery. Desktop application and technical courses are offered in an instructor-led or web-based format.

SSSI's training is custom designed based on your specific needs. Our new laptop mobile training lab gives our customers the flexibility of on-site training.

A few of our clients include:

- The U.S. Department of Labor
- Social Security Administration
- Maryland Motor Vehicle Administration
- The U.S. Department of Health and Human Services
